

# GARDINER AUSTRALIA

## Manufacturers of foam & rubber

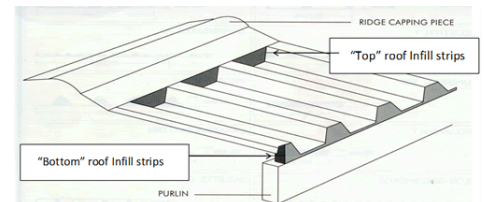

### Roofing & Marine Products

Products for these industries are manufactured using our Australian made foam and include Aluminised Internal engine sound insulation pads, boat fender, Lapseal Foam Tape, Purlin Foam Tape & a comprehensive range of Roof Infill Strips

With over 80 different roofing profile tools Gardiners are able to cover most common profiles. They are also able to custom build your specific roof profile.

All profiles clip together via the dovetail clips located at either end of each profile

### Foam Tapes

A comprehensive range of self-adhesive foam tapes available in a range of thicknesses.

### Adhesives

Gardiner Australia supplies a number of specialty adhesives for a range of applications, including one specifically designed for use in pool repair.

### Rubber & Foam Sheets & Rolls

Gardiner Australia manufactures their own foam & sponge rubber which can be split into sheets or converted into continuous roll stock. Range includes PVC closed cell foam, Aero-mesh, polyester & polyether open cell foam.

### Conversion Capabilities

We are able to die cut, kisscut, reel slit, laminate, split, thermoform and even mould a large range of shapes, thickness and products. As well as foam & rubber we work with felts, plastics, cork and solid rubber.
