With extensive manufacturing facilities throughout Australia and Asia as well as access to ITWs' facilities in Europe and the USA, we are able to offer real innovation in construction products technology. ITW has some of the most recognisable product brands in the construction.

Buildex is one of the world's leading manufacturers and suppliers of self-drilling screws and fasteners. Established in Australia since 1917, the Buildex manufacturing plant produces hundreds of millions of self-drilling screws annually from roll-forming to threading, alloy plating to head painting, including stainless steel fasteners.

5 Key reasons why you should choose Buildex

- Buildex Fasteners are made to exacting high standards of quality and are subjected to strict inspection and testing procedures.
- Buildex Fasteners are available in a choice of finishes that comply with both Australian (AS3566) and International standards, to provide maximum endurance over a wide range of climatic and environmental conditions.
- For every type of application, Buildex has the appropriate fastener solution. All Buildex fasteners are designed to do their particular job more efficiently and effectively than conventional fasteners. When you are using Buildex Fasteners you are using the most modern fastener available.
- Buildex is Australian quality endorsed to ISO9001 and committed to developing modern, innovative products with constant research and development.
- Buildex is the pacesetter in the design and manufacture of fasteners for the building industry
