

Tough Dog suspension is an industry leader in innovative and quality suspension systems for just about every 4WD application.

With over 29 years in business and a combined experience of over 100 years, every Tough Dog product is researched and developed in Australia. With some of the harshest conditions right here in Australia to test products, the gear that makes it to the market is a cut above the rest.

Tough Dog's pioneering attitude to R&D has resulted in them leading the way with several unique products.

The **Return To Centre** and the **'SV' adjustable** steering damper are two great examples of the results of the team's unique thinking when it comes to making the best off road suspension system available.

PRODUCTS

SPRINGS Tough Dog springs are all designed in house & manufactured from a range of quality materials. Whether it's comfort or load carrying you need, Tough Dog have a spring you can count on

SHOCK ABSORBERS Our 41mm foam cell shock has been voted the number one shock as 'best all-round performer' by Australian 4WD Action Magazine.

STEERING DAMPERS Quality steering components go a huge way to alleviating driver fatigue as rough and unforgiving road surfaces can transfer through the wheels and up to the steering wheel.

ALIGNMENT Quality alignment and supporting products are a must to ensure your vehicle retains its handling characteristics as well as guarding against drivetrain vibration and premature tyre wear.
